

Custom Curb Mounted Skylights

FCM | Fixed Curb Mount

Curb mounted skylights provide a quick and easy solution for replacing plastic bubbles with quality glass VELUX skylights. Switching from existing acrylic bubble skylights to VELUX FCM skylights can save you hundreds of dollars in energy costs each year.

The custom FCM curb mounted fixed skylight works with all types of site-built curbs, whether they're slightly out-of-square, pre-existing, or surrounded by unusually thick flashing and roofing material.

Heavy-duty construction ensure the FCM skylight is built to withstand the installation process, as well as harsh weather conditions.

IMPORTANT CHANGE! See diagram before ordering

FCM | Pricing

Maximum skylight clearance	18 ¾	19 - 26 ½	26 ¾	27 - 34 ½	34 ¾	35 - 38 ½	38 ¾	39 - 44 ¾	45 - 50 ½	50 ¾
